

Safeguarding and Welfare Requirement: Health

Where children are provided with meals, snacks and drinks, they must be healthy, balanced and nutritious.

6.5 Food and drink

Policy statement

Begbroke Playgroup regard snack and meal times as an important part of our day. Eating represents a social time for children and adults, and helps children to learn about healthy eating. We promote healthy eating using resources and materials from the Pre-school Learning Alliance. At snack we aim to provide nutritious food, which meets the children's individual dietary needs.

Procedures

Begbroke Playgroup follow these procedures to promote healthy eating in our setting.

- ☞ Before a child starts to attend the setting, we ask their parents to note down about their dietary needs and preferences, including any allergies. (See the Managing Children who are Sick, Infectious or with Allergies Policy.)
- ☞ We record information about each child's dietary needs in the Registration Form and parents sign the form to signify that it is correct.
- ☞ We regularly consult with parents to ensure that our records of their children's dietary needs - including any allergies - are up-to-date. Parents sign the updated record to signify that it is correct.
- ☞ We display current information about individual children's dietary needs so that all our staff and volunteers are fully informed about them.
- ☞ We implement systems to ensure that children receive only food and drink that is consistent with their dietary needs and preferences, as well as their parents' wishes.
- ☞ We display the menu of snacks for parents to view.
- ☞ We provide nutritious food for all meals and snacks, avoiding large quantities of saturated fat, sugar and salt and artificial additives, preservatives and colourings.
- ☞ We include foods from the diet of each of the children's cultural backgrounds, providing children with familiar foods and introducing them to new ones.
- ☞ We take care not to provide food containing nuts or nut products and we are especially vigilant where we have a child who has a known allergy to nuts.

- ☞ Through discussion with parents and research reading, we obtain information about the dietary rules of the religious groups to which children and their parents belong, and of vegetarians and vegans, as well as about food allergies. We take account of this information in the provision of food and drinks.
- ☞ We show sensitivity in providing for children's diets and allergies. We do not use a child's diet or allergy as a label for the child, or make a child feel singled out because of her/his diet or allergy.
- ☞ We organise snack times so that they are social occasions in which children and adults participate.
- ☞ We use snack times to help children to develop independence through making choices, serving food and drink and feeding themselves.
- ☞ We provide children with utensils that are appropriate for their ages and stages of development and that take account of the eating practices in their cultures.
- ☞ We have fresh drinking water constantly available for the children. We inform the children about how to obtain the water and that they can ask for water at any time during the day.
- ☞ We inform parents who provide food for their children about the storage facilities available in our setting.
- ☞ We give parents who provide food for their children information about suitable containers for food.
- ☞ In order to protect children with food allergies, we stop children from sharing and swapping their food with one another.

Packed lunches

For lunch the parents are required to supply a packed lunch, we will:

- ☞ Ensure perishable contents of packed lunches are refrigerated in the kitchen.
- ☞ inform parents of our policy on healthy eating;
- ☞ inform parents of whether we have facilities to microwave cooked food brought from home;
- ☞ Discourage packed lunch contents that consist largely of crisps, processed foods, sweet drinks and sweet products such as cakes or biscuits. We reserve the right to return this food to the parent as a last resort;
- ☞ provide children bringing packed lunches with plates, cups and cutlery; and
- ☞ Ensure that adults sit with children to eat their lunch so that the mealtime is a social occasion.
- ☞ The small tables are arranged so the children sit in small groups with at least one adult sitting with them.
- ☞ The children are asked to use the toilet and wash their hands before sitting down to eat.

Legal framework

- ☞ Regulation (EC) 853/2004 of the European Parliament and of the Council on the Hygiene of Foodstuffs.

Further guidance

- ☞ Safer Food, Better Business (Food Standards Agency 2011)
